The Record.

Muhlenberg County
is rich in coal, iron, timber, potter's clay, etc., and the most inviting field in Kentucky for investment of capital and pluck.

VOL. XIII. NO. 30.

GREENVILLE, KY., THURSDAY, SEPTEMBER 7, 1911.

50c. PER YEAR, IN ADVANCE

RYE AND RAPE CATCH CROPS

Down Just Before Cultivating Corn
Last Time in July—Value as
Fertilizer \$5 Per Acre.

(By J. N. CLOVER, Boone county.)
OF the crops which followed ahead of the cultivated corn, the last cultivation of corn in the field was to get a growth to take under in the spring and to protect the land from winter washing, and the rape and rye were most satisfactory.

Rye was sown one year when the potatoes were taken out in September, and a heavy and it made to turn under for oats in April.

Another year rye was sown on corn stubble after the corn was cut at the rate of one and one-quarter bushels per acre, and it made a fair cover crop, which I know prevented washing, though the ground was harrowed only twice before drilling in the seed.

I should judge its value as a fertilizer is about six dollars per acre, and the seed costs only seven cents per pound. Some of the rape was green all winter, and persons seeing the growth it had made in the standing corn were surprised, while the growth of corn was in the same field was not encouraging. Crimson clover is a good catch crop, if one can secure a stand, and it lives through the winter. Rape is the best crop for winter, considering the cost of seed and its fertilizing value, and rye is very good, especially when it is to be turned under for potatoes, or one wishes to pasture it in the fall.

SHED FOR STORING MANURE

Cheap Shelter Prevents Leaching
Where Not Convenient to Haul
Fertilizer to Fields.

Manure is one of the most important things on a first-class farm. How

Cheap Manure Shed.

The illustration shows a shed 8x10 with sides 7 feet high and the corners 7 feet to the eaves. The end boards are held in place with stakes at two corners so that one side is movable and may be left out until the shed is partly filled. The shed prevents leaching where it is not convenient to haul it to the field immediately after it is made.

Pieplant Easy to Grow.

Pieplant is easily produced in a commercial way, yields immensely, and is easily gathered and put into shape for the market. It can be shipped almost any distance. Then, too, the demand for it on the market makes it one of the two best vegetables for commercial use. Pieplant is usually set in rows four feet apart, and two and one-half feet in the rows. Like asparagus it should be carefully tended and heavily manured. It should be fertilized every winter.

Will Return Profit.

The preparation for conserving barnyard manure entails some expense and labor but all such expenditures will return a margin of profit commensurate with the outlay.

FARM NOTES

The necessity of the silo is highly apparent.

Have you provided a green crop for July and August?

Plants cannot penetrate or feed in a cold, compact soil.

Do not fail to drain your soil; it will pay you for your toil.

If clover's sticky, put on lime; that will bring the soil to line.

Growing corn much water needs; keep a soil mulch; kill the weeds.

Proper re-enforcement is an important item in successful concrete work.

Club root of cabbage is one of the most annoying yet easily controlled of diseases.

Watch sweet clover. It begins to look as if it had a very valuable place among our farm crops.

A lawn mower will be found about the premises of the farmer who cares about his surroundings.

The question of farm power and farm transportation is one of the most important questions connected with farming.

Dig up grain plants and you will find that they form their roots at the same depth whether planted deep or shallow.

To be on the safe side cabbage plants should be started in soil which has not been previously used for cabbage culture.

Scrubby pines won't fit to plant.

The mild growth and thinness of the willow makes it almost invaluable on many farms.

Every tiller of the soil should see to it that every particle of home products is utilized to the best advantage and the residue returned to the soil.

STEEL MONSTERS CRASH HEAD ON

THRILLING SPECTACLE PROMISED FOR VISITORS AT KENTUCKY STATE FAIR.

COLD SHIVERS A PLENTY

Two Monster Steel Steam Engines Dash to Certain Destruction in Full View of Spectators.

Seldom is it that any community is afforded an opportunity to witness such an ambitious and thrilling performance as is promised the crowds in attendance at the Kentucky State Fair on Saturday, September 16, when the spectacle is provided of two monster steam engines, started under a full head of steam and permitted to crash head-on in full view of the spectators. A sight such as this is sufficient to cause the most stolid of persons, be with the nerves of steel, to involuntarily shudder and flinch as the collision occurs.

The idea of escaping steam, the bursting of the great boilers, the tearing and crashing and grinding of twisted masses of steel are even inspiring in the terrible force which accompanies them.

The sight of the two mountains of machinery rushing headlong into each other's embrace is sufficient to freeze the blood in one's veins, and send shivers of fear rushing up and down the spinal column, despite the knowledge that there is no personal danger. The sensations resulting are intense but it is such as those that the human family is seeking to-day, and no more spectacular offering could be provided to satisfy the ever present desire for something out of the ordinary.

The engines are placed on opposite ends of a track built especially for the purpose. The fires are started, the steam is increased, the throttles are thrown open, and the two monsters are started to physical destruction by engineers who leap to safety before the impact comes.

PREMIUM LIST FOR CREAMERY BUTTER

NEW DEPARTURE FOR KENTUCKY TO MAKE HIT.

Nursery cultivation is proving not only one of the most fascinating of studies in the rural sections of Kentucky but it also is developing into one of commercial importance which is taking high rank. To those interested it will be good news to learn that the Kentucky State Fair management has decided to offer tempting premiums for nursery displays in connection with plant and flower department.

This is another of the entirely new departures which have been decided upon for the big Kentucky State Fair of 1911. It is along the lines of progress and improvement which make certain that the Kentucky State Fair not only will maintain its lead in the south but that it will take its rightful place among the great state exhibitions of Indiana, Iowa, Illinois, Minnesota and others to the north.

PERMANENT BUILDING IN INTEREST OF HEALTH

The campaign for health being waged the country over is to be aided materially by the establishment on the grounds of the Kentucky State Fair, at Louisville, of a permanent health building, the cost of which will be paid by the Jefferson county fiscal court. Dr. W. Ed Grant, city health officer of Louisville, and Dr. W. B. Smock, Jefferson county health officer, took up this matter with the fiscal court and secured the appropriation. The federal government has agreed to send a corps of instructors to Kentucky each year during the fair to deliver lectures dealing with the problem of health.

PRIZE WINNERS' PARADE ONE OF BIG FEATURES

Livestock, Bedecked in Ribbons, March Around Pavilion to Delight of Audience.

What has always been one of the most interesting of all the features in connection with the Kentucky State Fair was the grand parade of prize winning livestock around the ring in the pavilion building. This feature is to be given more attention this year than ever. It will be started at two o'clock on the afternoon of Friday, September 15.

This parade is an imposing one, not alone from the amount of money represented by the premiums, but because of the great amount represented in the value of all the winners combined. The slow moving, ribbon bedecked cat is seen aware of their commercial importance as they trudge around the ring, while the sleek, carefully groomed horses of high degree prance along as if more than conscious of their grace and breeding.

Collie dogs, running and barking at the crack of the whips of their masters, ponies and costly sheep and hogs, all combine to make a show equal to any presented during the week. It is a source of pride to those who own the prize winners and a stimulus to others to enter their stock in future competitions.

Kentucky Fair Dates.

The following are the dates fixed for holding the Kentucky Fair for 1911 as far as reported. Officers of fairs are requested to report to us any omissions or corrections of dates.
Nicholasville, August 29-3 days.

Stubborn Case

"I was under the treatment of two doctors," writes Mrs. R. L. Phillips, of Indian Valley, Va., "and they pronounced my case a very stubborn one, of womanly weakness. I was not able to sit up, when I commenced to take Cardui.

I used it about one week, before I saw much change. Now, the severe pain, that had been in my side for years, has gone, and I don't suffer at all. I am feeling better than in a long time, and cannot speak too highly of Cardui."

Take

CARDUI Woman's Tonic

if you are one of those ailing women who suffer from any of the troubles so common to women.

Cardui is a builder of womanly strength. Composed of purely vegetable ingredients, it acts quickly on the womanly system, building up womanly strength, toning up the womanly nerves, and regulating the womanly system.

Cardui has been in successful use for more than 50 years. Thousands of ladies have written to tell of the benefit they received from it. Try it for your troubles. Begin today.
